The first of Tanith Lee's "The Secret Books of Paradys" features three tales set in a shadow version of Paris across a span of several centuries; while no dates are referenced, the settings appear by the furniture and references to be post-revolution, early Renaissance and late 19th century respectively. First in a series, this is a collection of three novellas, set in a mythical city called Paradys or Paradis, depending on the period in which they are set.
