The cubs are weaned at three months but remain in the den until they are about six months of age. Apart from when something actually goes wrong. Lola Reid, from Mars said: FingerscrossedthecatturfwarsarenowanendastheMonsterCathasmovedo  
If you know what your cat has ingested, take that along with any packaging, as this may help your vet to calculate how much nicotine your cat has ingested. He also drew artistic inspiration from his dogs too, including a dachshund called Archie.
