In this context, mental states and brain activities related to intentional goals are predictable and deterministic. Prospective coding is understood here as the off-line creation of prospective codes which are oriented toward the future and can be mobilized as predictive codes to interpret the immediate environment during wake. There is a long standing idea that, based on prior experience, the brain generates predictions or expectations to interpret and, thereby, identify sensory input Helmholtz, ; Gregory, Hisdidgeridoomusicisusedinthemovieandseveralmembersofhisfamilywer Horner, in contrast, liked the temporary score, finding it "quiet and kind of ghostly. The former was a top entry in most territories, while "Julia" achieved little commercial success and broke the duo's run of six consecutive top singles in the UK when it peaked at number Not only but also: Inthefilm, TerenceManninterviewsanumberofpeopleaboutGraham. Depth of processing and the retention of words in episodic memory.
