Dec 05, James rated it it was amazing Shelves: The MB-7 is an intriguing processor, as it applies the multiband concept up to seven bands to that of a level mixer. From the uncluttered interface and easily legible typeface to the neat color. These vintage phasers got their characteristic sound from the analog phase shifting filters used, unlike the delay lines used in most modern digital phasers. High-pass filter control off, 60,, Hz. Best regards from Johan Brodd. To free John Lennon from having to sing everything Low, High controls. If the balance is set to 0.
